3 Composition/information on ingredients

- · Chemical characterization: Substances
- · CAS No. Description
- 64742-48-7 Distillates (petroleum), hydrotreated light
- · Identification number(s)
- · **EC number:** 265-149-8

4 First-aid measures

 Description 	of first aid	measures
---------------------------------	--------------	----------

- · After inhalation: Supply fresh air; consult doctor in case of complaints.
- · After skin contact: Wash with soap and plenty of water. Remove contaminated
- clothing and launder before reuse.
- · After eye contact: Rinse opened eye for several minutes under running water.

• After swallowing: Give large amounts of water. Do NOT induce vomiting. If symptoms persist consult doctor.

· Information for doctor:

• *Most important symptoms and effects, both acute and delayed* No further relevant information available. (Contd. on page 3) USA

5 Fire-fighting measures

- · Extinguishing media
- Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- · Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters

• **Protective equipment:** Wear self-contained breathing apparatus and protective suit. Keep closed containers and surroundings cool with water spray.

6 Accidental release measures

· Personal precautions, protective equipment and emergency procedures Not required.

- · Environmental precautions: Do not allow to enter sewers, surface or ground water.
- Methods and material for containment and cleaning up: Absorb with liquid-binding material (ie. sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.
- Reference to other sections
 See Section 7 for information on safe handling.
 See Section 8 for information on personal protection equipment.
 See Section 13 for disposal information.

7 Handling and storage

- · Handling:
- · Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols or spray mists. Electrically ground when transferring between containers.

- Information about protection against explosions and fires: Protect from heat.
- \cdot Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: No special requirements.
- · Information about storage in one common storage facility: Not required.
- · Further information about storage conditions: Protect from heat and direct sunlight.
- · Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· Additional information about design of technical systems: No further data; see section 7.

- · Control parameters
- · Components with limit values that require monitoring at the workplace: Not required.

10 Stability and reactivity

- · Reactivity
- · Chemical stability: Stable under normal conditions of use.
- **Thermal decomposition** | **conditions to be avoided:** No decomposition if used according to specifications.
- · Possibility of hazardous reactions: No dangerous reactions known.
- · Conditions to avoid: Keep away from heat and sources of ignition.
- · Incompatible materials: Avoid strong oxidizing agents.
- · Hazardous decomposition products: Oxides of carbon.

11 Toxicological information

- · Information on toxicological effects
- · Acute toxicity:
- · LD/LC50 values that are relevant for classification:

64742-47-8 Distillates (petroleum), hydrotreated light

Oral	LD50	>5,000 mg/kg (rat)	
-		• • • • • • • • • •	,

Dermal LD50 >2,000 - 4,000 mg/kg (rabbit)

Inhalation LC50 4 h >4.3 mg/l (rat)

- · Primary irritant effect:
- · on the skin: No irritant effect.
- · on the eye: No irritating effect.
- · Sensitization: No sensitizing effects known.

- **NTP (National Toxicology Program)** Substance is not listed.

12 Ecological information

- · Toxicity
- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- **Bioaccumulative potential:** No further relevant information available. **Biodegradation:** Readily biodegradable
 - OECD Test Guideline 301F (28d): 97%
- · Mobility in soil No further relevant information available.
- · Additional ecological information:
- · General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

· Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

•**Waste Code:** Any unused product may be disposed of as non-hazardous in accordance with State and Federal regulations. Re-evaluation of the product may be required by the use at the time of disposal, since the product uses, mixtures, contamination may change the classification.

Empty Container: May contain product residue that can be dangerous. Do not cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, static or other sources of ignition.

14 Transport information
