

MAGNAGLO[®] AX-52 CORROSION INHIBITOR

GENERAL DESCRIPTION

Magnaglo[®] AX-52 is a clear to slightly hazy yellow to amber liquid used in wet method magnetic particle testing when water is used as the bath vehicle. Being a liquid, AX-52 mixes in, dissolves quickly and is an outstanding corrosion inhibitor for water base wet method magnetic particle inspection.

COMPOSITION

Magnaglo[®] AX-52 is composed of corrosion inhibitors.

TYPICAL PROPERTIES (Not a specification)

Typical Properties	AX-52
Form	Pale Yellow to Amber Liquid
Specific Gravity	1.08 ± 0.01
PH	9 - 10

BATH PREPARATION

Add 1 pint of Magnaglo[®] AX-52 to 10 gallons of Magnaglo[®] 20B bath while stirring, or 2 pints to baths not using #20B to improve corrosion inhibition.

PACKAGING

1 Gal. Plastic Bottle, 5 Gal. Plastic Pail, 55 Gal. Drum.
