

Industrial Metal Cleaner Product Data Sheet

PO Box 9 Tucker, GA 30084 800-886-8240 • 770-621-8240 www.ecolink.com email: info@ecolink.com

Description

An excellent replacement for HCFC-141b and TCE based cleaners. It evaporates very quickly and leaves absolutely no residue. These performance characteristics, combined with good materials compatibility, make ECOLINK NF-45 Aerosol an ideal degreaser.

Benefits

- Non-Flammable
- Rapid Evaporation
- Non-Conductive
- Leaves no residue
- Safe on all metals and many plastics, electronic components and other critical surfaces*
 - * We suggest that you always test critical compatibility or call us for tech support.

Applications & Directions

ECOLINK NF-45 is designed to clean contacts, relays, and other critical electronic components. It is an excellent replacement for HCFC-141b contact cleaners with many of the same performance characteristics.

Point spray opening away from face. Spray surface to be cleaned until well saturated. The rapid penetration and evaporation of Ecolink NF-30 will remove contaminants in a single application. Re-apply only if necessary.

Key Physical Characteristics

Property	Typical Value	
Boiling Point	45° C	
Color	Colorless	
Flash Point, TCC	None	
Odor	Ethereal, Faintly Sweet	
Percent Volatile	100%	
Solubility in Water	Negligible	
Specific Gravity	Approx. 1.30	
VOC Content	~585 grams/liter	
	(45% by weight)	
Vapor Density (Air=1)	>1.0	

Safety and Handling Precautions

Good ventilation is a must. Use solvent resistant gloves if skin contact is likely and safety glasses with splash protection. All used and unused product should be disposed of in conformance with local, state and federal regulations. Keep out of reach of children. Treat this chemical with respect and follow all MSDS instructions.

Packaging

Name	Part No.	Packaging
Ecolink NF-45 (A)	2020-13	12x13 oz Aerosol
Ecolink NF-45	2020-1	4 x 1 gallon cans
Ecolink NF-45	2020-5	5 gallon pails
Ecolink NF-45	2020-55	55 gallon drums
