Description

This product is a water-based, residual insecticide in a ready-to-use formulation. It is formulated with an extremely effective and rapid killing agent in combination with an efficient flushing agent that drives insects out of their hiding place and kills them, dead!

Its combination of long-lasting residual activity, up to 60 days, along with its absence of odor and non-staining characteristics, make this the product of choice whenever pesky, crawling insects are a problem.

Benefits

- Low odor
- Long lasting
- Non-staining
- EPA registered
- Rapid kill for roaches, fleas and ticks
- No SARA or RCRA listed ingredients

Applications

This product can be used indoors and out as a ready-to-use spray to kill roaches, ants, ticks, fleas and other insects. Use in commercial buildings, office buildings, homes, kennels, schools, motels, etc.

Spray baseboards, under sinks and cabinets and other area where insects migrate. Use a NIOSH approved respirator with organic vapor canister if exposed to vapor or mist. Impermeable chemical handling gloves are recommended for skin protection. Use chemical safety glasses. Wash your hands after using and before smoking or eating.

Key Physical Characteristics

<u>Property</u>	<u>Typical Value</u>
Boiling Point	215 F
Color	Opaque
Evaporation Rate (Water = 1)	Near that of water
Flammability Limits (vol%)	N/A
Flash Point, Tag Closed Cup	None to boiling
Odor	Alcohol
Solubility in Water	Soluble
Specific Gravity (H ₂ O=1)	1.00

Safety and Handling Precautions

Use a NIOSH approved respirator with organic vapor canister if vapor or mist becomes a problem. Impermeable chemical handling gloves are recommended for skin protection. Use chemical safety glasses. Wash hands after using and before smoking or eating.
