Description

An excellent halogenated replacement for the now-banned CFC-113. Unlike CFC-Free contact cleaners made with alcohol and other flammables, ECOLINK 2005 Aerosol has no flash point. It evaporates instantly and leaves absolutely no residue. These performance characteristics, combined with a high dielectric strength, (+ 32,000 Volts), make ECOLINK 2005 an ideal electrical solvent.

The performance of ECOLINK 2005 is enhanced through the use of HCFC chemistry. HCFC is an interim chemistry, designed to help users of CFC's through the CFC phase out. HCFC's will be available to users of CFC long after the CFC's are phased out of production. They are intended to be used for critical cleaning, where no other alternative is acceptable.

Benefits

- Non-Flammable
- Fully evaporative
- Contains NO CFC's
- Leaves absolutely no residue
- Safe on plastics, computer components and other critical surfaces*

* We suggest that you always test critical compatibility or call us for tech support.

Applications

ECOLINK 2005 is a HCFC based chemistry used in many electrical maintenance applications. It is approved by EPA for ongoing use in various aerospace and power generation applications. ECOLINK 2005 is designed to clean contacts, relays, and other critical electronic components. It is an excellent replacement for CFC-113 contact cleaners with many of the same performance characteristics.

Key Physical Characteristics

<u>Property</u>	<u>Typical Value</u>
Boiling Point	89.6° F
Color	Colorless
Flash Point, Tag Closed Cup	None
Odor	Ethereal and Faintly Sweetish
Percent Volatile	100%
Solubility in Water	Slight
Specific Gravity	1.25 @ 50° F
VOC Content	Exempt Compound
Vapor Density (Air=1)	4.0
Vapor Pressure	586 mmHg @ 20°C

Safety and Handling Precautions

Good ventilation is a must. Use self contained breathing apparatus if above TLV. Solvent resistant gloves and safety glasses, with splash protection, are required. All used and unused product should be disposed of in conformance with local, state and federal regulations. Keep out of reach of children. Treat this chemical with respect and follow all MSDS instructions.

Packaging

<u>Prod. Name</u>	<u>Code</u>	<u>Packaging</u>	<u>Natl. Stock No.</u>
Ecolink 2005	0334-50	50 Gal. in 55 Gal. Drum	6850-01-386-8419
Ecolink 2005	0334-5	5 Gal. Pail	6850-01-386-8423
Ecolink 2005	0334	1 Gal.	6850-01-386-8410
Ecolink 2005	0334-1	4 x 1 Gal./Case
